

Action Plan for Powerful Women

Consider: Take a moment to list the five most prevalent challenges faced by the women of your home community.

- 1.
- 2.
- 3.
- 4.
- 5.

Discuss: Take the time to share listed challenges with the group, discussing points from each list after it is read. Which items match those on your own list? Which items are more often mentioned? How do these challenges impact your efforts as a spiritual leader within the community?

Take action: As a group, select *one* of the aforementioned challenges. Work together to create a viable action plan to meet this challenge, employing Christ's example. Your action plan may include readily available services and tools, or you may need to create new services and protocols.

Remember! A sustainable action plan for powerful women swirls in a pond with four stones:

- - *Prayer*
- - *Encouragement (in word, support, & community)*
- - *Effort*
- - *Growth. When it's time to grow, you must grow. If not, the mission will die.*
